

# Alabama AGC

*presents:*

This 25-hour instructor led course consists of nine highly interactive classroom sessions that focus on the knowledge and skills every supervisor needs to be an efficient manager of people, time, equipment and materials. This course includes case studies, group activities, and provides jobsite exercises for skill development. Learners will partner with company sponsors to apply the skills learned in the course, evaluate progress, and create a path to advance the student's career.

Session 1 - Team Management

Session 2 - Project and Team Leadership

Session 3 - Communication Skills

Session 4 - Time Management and Project Scheduling

Session 5 - Risk Management

Session 6 - Construction Law and Contract Documents

Session 7 - Problem Resolution

Session 8 - Productivity and Cost Control

Session 9 - Skills Development
